SUPERINTENDENT'S REPORT

I herewith submit my eighth annual report as superintendent of schools, it being the sixteenth in the series of such reports.

Three schools are now open in Effingham, the South Effingham School having been closed, and the pupils transported to Center Effingham. The property is well kept, as usual, and the school board looks after the welfare of the schools.

The teachers are as follows:

Center Effingham, Gladys Leavitt.

Effingham Falls, Donald Chase, Plymouth Normal School.

Mountain, Flora A. Charles, Plymouth Normal School.

Health inspection is being directed by the school nurse, Helen H. Nichols. Her report as printed gives record of the work this year. Good results were accomplished last spring in the dental clinic, held under the care of the former nurse, Ruth S. Langille. Other fine clinic work was accomplished with the aid of Federal funds. It is well that the children be kept in good physical condition. Milk and cod liver oil have been furnished for children needing health improvement.

Parents are again reminded that children must be vaccinated before entering school. This should be done early in the summer.

Visual Education

The motion picture has been used this year as

an aid in education. Pictures have been shown about bananas, oranges and corn. A picture was shown on Memorial Day entitled "The Heart of a Hero," giving the story of Nathan Hale, the patriot spy who said when facing death, "I only regret that I have but one life to give for my country." The historical picture given in the fall was well received. By help from the Effingham Woman's Club a special emphasis was placed on music, a paper prepared by Mrs. Watson being read by Miss Charles. Several citizens and former members of the school assisted with solos and orchestra selections. This spring we plan another picture gathering to be held at Center Effingham in which art will be emphasized with Mr. Perry Haines as the speaker. Later still we plan for another gathering when Commissioner Pringle from Concord has agreed to be present and speak to us.

Adult Education

A class in adult education has been organized this winter, meeting every Thursday evening at the Falls schoolhouse. Mr. Lorne B. Hulsman, as teacher, conducts hour classes in Current Events, Literature, and Business Law. These classes have been very interesting and should be well patronized.

Improvements

For next year we should keep in mind the beautification of the school grounds. Shrubbery, flowers and shade trees add much to the beauty of the school grounds.

I would make special suggestion that the build-

ings be equipped with electric lights. This would make evening gathsrings possible and would permit showing the motion pictures. It is difficult and wasteful of time to take a school out of the building and transport to some neighbor's house or barn.

The Falls school should be equipped with a new chemical toilet.

Statistics

For the year ending June 30, 1934, we had an average attendance of 53, an average membership of 55, and a percent of attendance of 95%.

Schools having a percent of attendance of 95 or more are as follows:

South Effingham	96.3
Center Effingham	96.
Falls	95.
Mountain	95.

Last June we graduated a class of three: Marion Fulton, Irene Pike and Evelyn Davis.

High School Attendance

Former Commissioner Butterfield said not long ago, "Some five million American boys and girls are attending high schools. They are doing this, not for the honor of it, not that they may wear an academic badge, but that they may use education in their daily lives The ordinary citizen for ordinary life needs three characteristics: social adaptation; many and broad interests; and the ideals and habits of good citizenship."

Effingham is doing well to provide high school opportunities for its grammar school graduates. Following is a list of those registered in high school this year:

REPORT OF SCHOOL HEALTH WORK

Through the Federal Relief Health Recovery Program several children had their tonsils and adenoids removed this summer but there are still 13 who need this defect corrected.

The dental clinic has done its usual good work and has made a vast difference in the health of the children. At present only those who need much work done on their teeth are the new comers to the schools. Of course a check up and some work is necessary each year.

Some children have had glasses and the health of the schools is now nearly 100%. How soon can we make it 100%? Soon I hope.

Respectfully submitted,

HELEN NICHOLS

School Nurse
